# ENDOSKILLS

LIVE ENDOSCOPY - EDUCATION, TRAINING AND RESEARCH EVENTS  
ROYAL PRINCE ALFRED HOSPITAL | SYDNEY AUSTRALIA

There is an increased demand for relevant and affordable live endoscopy educational events.

Our Endoskills brand has grown dramatically due to our informative and relevant content. Addressing basic procedural skills, common clinical dilemmas and some interesting new devices and directions are key objectives of Endoskills.

Our motto is that what you see at Endoskills you can apply at your next endoscopy list.

The 2020 Endoskills Series involves two key areas. These areas are very different and appeal to different audiences. Hence, we have separated our meetings into:

- (1) General GI/luminal endoscopy
- (2) 3<sup>rd</sup> Space

Endoskills-GI will have a series of lectures updating key practices and live cases telecast from 2 rooms with a focus on key day-to-day procedural and practice issues.

Endoskills 3<sup>rd</sup> Space is a one day workshop focusing on ESD and POEM procedures, inclusive of lecture and hands on sessions

We sincerely hope that you will join us!
